

Overview

When you select Maumee Express for waste transportation, you get cost effective, timely transport solutions backed by our company's waste transport and handling expertise.

Since our beginning, we have sought to provide our clients with the high service levels that led to our founder C.G. Potter's success. Maumee Express has been in business since 1960 serving our nationwide customer base. Maumee Express has waste transfer facilities for hazardous and nonhazardous waste at our Abingdon, VA, Langhorne, PA, Sumter, SC and Fontana, CA, facilities.

We're moving forward. As times have changed, so has MXI. We have grown from a small, local trucking company to a hazardous and nonhazardous waste specialist with transport and materials recovery operations and a separate environmental services division that operates both a Materials Recovery Facility (MRF) and a Distilled Spirits Plans (DSP).

Our trucking operations are expanding and modernizing. We realize that our drivers and trucks are the heart of our success, so we are expanding our driver training program, focusing on reporting requirements, and installing fleet monitoring computers in each truck.

Client Industries

- Utilities
- Railroads
- Environmental engineers
- Waste brokers
- Recyclers
- Treatment & disposal facilities
- Waste management companies

Our Vision

MXI is a transportation and disposal company focused on hazardous and nonhazardous waste. We are a privately held company & plan to remain that way. We will continue to position our efforts on growing transport and disposal of hazardous and nonhazardous waste. We will also emphasize accelerating our growth in environmental services.

What Our Customers Say

We recently surveyed our customers as part of our marketing strategy development. We were happy to learn that we are doing many things right.

Here's what some of our customers had to say about working with us.

“MXI customer service is willing to go the extra mile, and is extremely flexible in scheduling runs.” -- *Transportation Director, Disposal Facility*

“I consider MXI to be above average & a good transporter. I wouldn't use them if they weren't.” -- *Professional Engineer, Engineering Services firm*

“Chris does a really good job for me. He makes it easy by getting me trucks when I need them. I can call at the last minute.” -- *Sales Coordinator, Chemical Distributor*

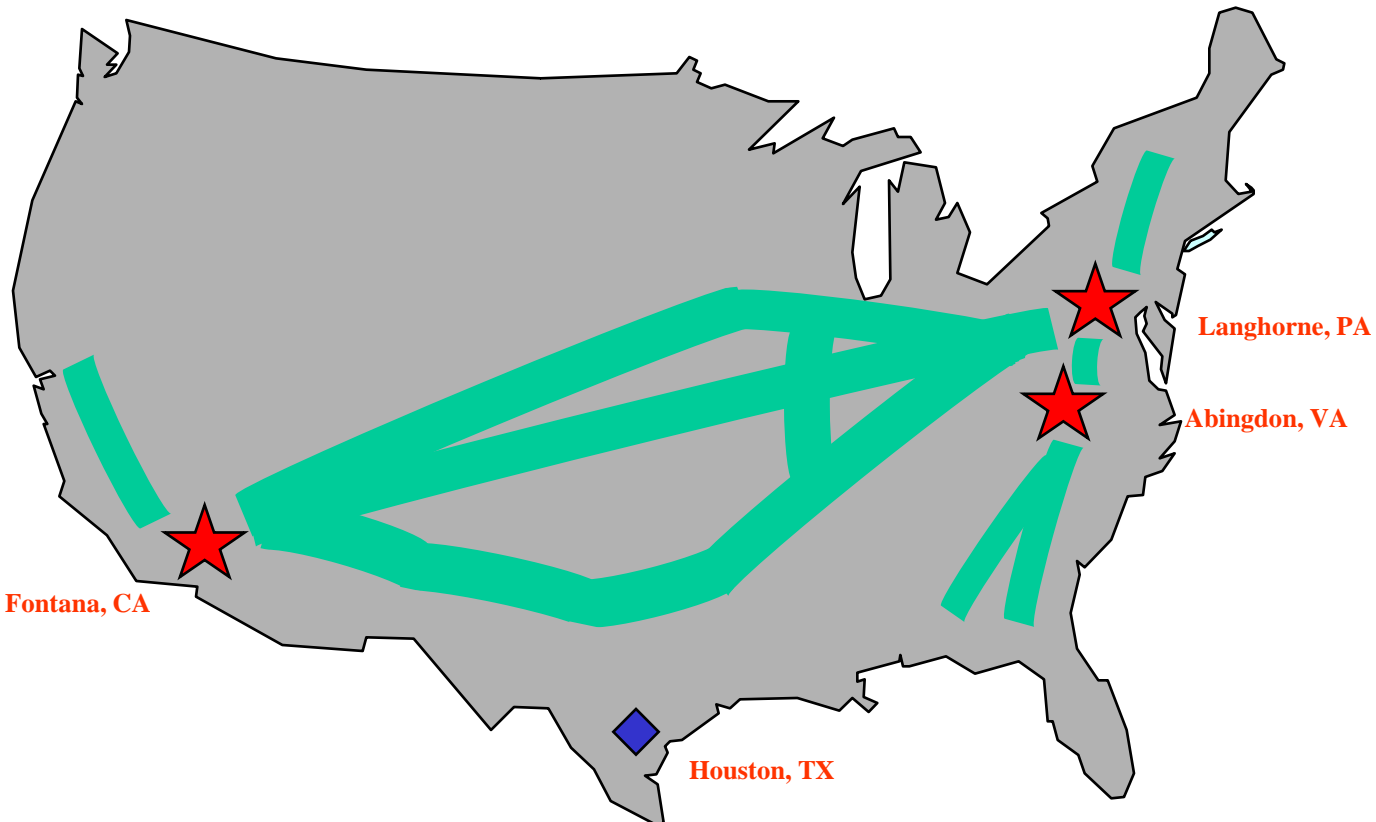

“MXI is willing to do the extras...they're willing to hold hazardous freight in their yard for us. Tony understands the business really well and really carries the ball for us.” -- *Director of Transportation, Environmental Services firm*

Service is exactly what MXI says it will be. The end result is always good.” -- *Sales Manager, Environmental Services firm*

Customers told us:

- they feel MXI cares
- our truck availability is good
- our pricing is competitive
- MXI is flexible to meet customer needs

Our Fleet

As an MXI/Maume Express customer, you can be assured that your waste pickups & deliveries will be made **on-time, with the right equipment, and at a reasonable cost.**

We are permitted in 39 states for hazardous & non-hazardous waste transport. We operate in strict accordance with US DOT, EPA, state agencies & local authorities.

MXI offers

- LTL & full truckload pickups
- a well-maintained fleet
- real-time fleet monitoring
- van, liftgate vans, vacuum truck, tanker, rolloff & specialized trailer service

Permits

MXI is permitted for hazardous and nonhazardous waste transport in 50 states. Our Safety Director works diligently to renew our permits so that we can provide you environmentally friendly, regulatory compliant transportation. Please check our web site, www.mxiinc.com, for permit numbers and up to date permit status.

Safety & Insurance

At MXI, we know your peace of mind depends on our getting your wastes transported and disposed of without incident. As part of our ongoing insurance program, we maintain \$10 million of liability insurance, including pollution and contractors coverage.

We recognize that our drivers are the most important part of serving you. We know that the skills of even the best drivers can lose their edge over time, so we are committed to ongoing driver training. We emphasize safe driving, as well as manifesting, labeling, placarding, and DOT compliance in our training. We have appointed a driver training coordinator, who has over 25 years driving experience, to train our drivers.

Our company has achieved a motor carrier safety rating of satisfactory, according to the US DOT. This means that MXI has adequate safety management controls in place to comply with all Federal motor carrier safety and hazardous materials regulations.
